

PRODUCT DETAILS FOR OIL BASED FLAVOURS

Lip Flavour Product Safety Declaration

- **Product Classification:** Non-hazardous consumer-grade cosmetic additive.
- **Flavor Profile:** Food-grade, oil-soluble synthetic and natural aromatic compounds.
- **Safety & Toxicity:** 100% Vegan, Cruelty-Free, and formulated strictly to meet international cosmetic safety frameworks. Free from heavy metals, harsh parabens, or industrial solvents. Safe for accidental, minor ingestion during normal wear.

Manufacturing & Safety Disclosure

This product is imported and supplied exclusively as a **finished retail product** rather than a raw industrial chemical or bulk manufacturing base. Because it is packaged for direct consumer use, standalone industrial-grade Material Safety Data Sheets (**MSDS/SDS**) and batch-specific Certificates of Analysis (**COA**) are **not supplied** by the manufacturer.

For formulation transparency and basic skin-sensitivity tracking, please find the verified component profile below:

- **Ingredients (INCI Base):** Paraffinum Liquidum (Mineral Oil), Polyisobutene, Caprylic/Capric Triglyceride, Tocopheryl Acetate (Vitamin E).
- **Flavour Additives:** Cruelty-free, vegan, food-grade aromatic components (Listed as *Aroma / Flavor*).
- **Product Safety Status:** Free from heavy metals, harsh parabens, or formaldehyde. Formulation is non-toxic and structurally safe for incidental ingestion during standard lip application.

Important Note for Makers: If you choose to repurpose, mix, or repackage this retail product as a raw ingredient for secondary commercial manufacturing, **you assume 100% of the manufacturing liability**. Please ensure this application strictly aligns with your business insurance policy and local Australian Industrial Chemicals Introduction Scheme (**AICIS**) regulations.
